- 10.2.2 service Contracts or Contracts for the hire of goods for an indefinite or uncertain period or for a fixed term of more than 48 months; consideration payable in respect of each month multiplied by 48.
- 10.3 The value of regular or renewable service or supply Contracts shall be estimated either:
 - 10.3.1 by aggregating the value of similar Contracts for the same categories of services or supplies awarded by the Authority over the previous financial year or 12 months, adjusted where possible for anticipated changes in quantity or value over the next 12 months; or
 - 10.3.2 by taking the estimated aggregate value during the 12 months following the first supply or service performed, or during the term of the Contract where this is greater than 12 months.
- 10.4 A Contract cannot be artificially divided, nor a valuation method selected with the intention of avoiding any clauses within these Contract Procedure Rules. Contracts shall be packaged to ensure best service delivery, competition and value for money.
- 10.5 Where a purchasing requirement is subdivided into several smaller Contracts, the estimated value of each shall be aggregated to estimate the total Contract value. However it will not be necessary to aggregate the following:
 - 10.5.1 any works Contract that has an estimated value of less than the small lots provision in the table of values; or
 - 10.5.2 any service Contract that has an estimated value of less than the small lots provision in the table of values, provided that the aggregate value of all those smaller Contracts is less than 20% of the total Contract value.

- 11.2.2 no Contractor shall be led to believe that the information they offer will necessarily lead to them being invited to submit a tender or quotation, or being awarded the Contract;
- 11.2.3 a written record, including notes of any meetings held, the responses and the names of all individuals present shall be kept by the Responsible Officer on the Contract file.

12. Sustainable Procurement and Safeguarding

- 12.1 The Authority has a duty under the Wellbeing of Future Generations (Wales) Act 2015 to act in accordance with the sustainability principle and to ensure this guides decision making. The Authority must act in a manner which seeks to ensure that the needs of the present are met without compromising the ability of future generations to meet their own needs.
- 12.2 For all Contracts for goods and services the Authority shall consider social, economic and environmental issues when setting the tender evaluation criteria.

14.5 A register of approved exemptions will be maintained.
