

Report to	Audit Committee	
Date	16 June 2025	
Lead Officer	Helen MacArthur, Assistant Chief Fire Officer	
Contact Officer	Elgan Roberts, Head of Finance and Procurement	
Subject	Treasury Management Report for Year 2024/25	

PURPOSE OF REPORT

- 1 The purpose of this report is to provide Members of the North Wales Fire and Rescue Authority (the Authority) with an update on the treasury management activity and compliance with the treasury management prudential indicators for the period 1 April 2024 – 31 March 2025.

EXECUTIVE SUMMARY

- 2 In December 2003, the Authority adopted the Chartered Institute of Public Finance and Accountancy's *Treasury Management in the Public Services: Code of Practice (2021)* (the CIPFA Code) which requires the Authority to approve, as a minimum, treasury management semi-annual and annual outturn reports.
- 3 The CIPFA Code also included a new requirement for quarterly reporting of the treasury management indicators from April 2023. The non-treasury prudential indicators are incorporated in the Authority's normal revenue and capital monitoring report.
- 4 The Authority's treasury management strategy for 2024/25 was approved at a meeting on 18 March 2024. As the Authority borrows and invests significant sums of money there are financial risks that need to be considered, including the loss of invested funds and the revenue effect of changing interest rates. The successful identification, monitoring and control of risk remains central to the Authority's treasury management strategy.
- 5 During the year, the Authority's borrowing and investments remained well within the limits originally set. There were no new defaults by banks in which the Authority deposited money. Furthermore, the Authority's actual investment income was higher than the expected income in the 2024/25 budget.

RECOMMENDATIONS

- 6 Members are asked to:
 - i) **note the treasury management activities and prudential indicators for the period 1 April 2024 to 31 March 2025.**

EXTERNAL CONTEXT

- 7 UK annual Consumer Price Index (CPI) inflation continued to stay above the 2% Bank of England (BoE) target in the later part of the period. The Office for National Statistics (ONS) reported headline consumer prices at 2.8% in February 2025, down from 3.0% in the previous month and below expectations. Core CPI also remained elevated, falling slightly in February to 3.5% from 3.7% in January, just below expectations for 3.6% but higher than the last three months of the calendar year.
- 8 The BoE's Monetary Policy Committee (MPC) held Bank Rate at 4.5% at its March 2025 meeting, having reduced it in February. This follows earlier 0.25% cuts in November and August 2024 from the 5.25% peak. At the March MPC meeting, members voted 8-1 to maintain Bank Rate at 4.5%, with the one dissenter preferring another 25 basis points cut. In the minutes, the Bank also upgraded its Q1 2025 GDP forecast to around 0.25% from the previous estimate of 0.1%.
- 9 In May 2025, the Bank Rate was reduced to 4.25%. Interest rates are expected to decline further into 2025, contingent on wage growth, services inflation, and broader economic conditions.

LOCAL CONTEXT

- 10 On 31 March 2025, the Authority had net borrowing of £19.07m arising from capital expenditure.
- 11 The underlying need to borrow for capital purposes is measured by the Capital Financing Requirement (CFR), while balance sheet resources are the underlying resources available for investment. These factors are summarised in [Table 1](#) below.
- 12 Table 1 confirms that the Authority's net borrowings were below the Capital Financing Requirement (CFR).

Table 1: Balance Sheet Summary

	31.03.24 Actual £m	31.03.25 Actual £m
General Fund CFR	27.94	29.68
External borrowing	-17.78	-19.07
Internal borrowing	10.16	10.61
Less: Balance sheet resources	-13.13	-13.13
Less: New Investments	2.97	2.52
New borrowing	0.00	0.00

- 13 The treasury management position at 31 March and the change over the twelve months is shown in [Table 2](#) below.

Table 2: Treasury Management Summary

	31.3.24 Balance	Movement	31.03.25 Balance	31.03.25 Rate
	£m	£m	£m	%
Long-term borrowing	14.07	-5.61	8.46	2.81 - 4.80
Short-term borrowing	3.71	6.91	10.62	1.07 - 5.20
Total borrowing	17.78	1.29	19.07	
Short-term investments	-1.48	1.48	0.00	4.45 - 5.19
Cash and cash equivalents	-1.48	-1.04	-2.52	4.34- 5.14
Total investments	-2.96	0.44	-2.52	
Net borrowing	14.82	1.73	16.55	

BORROWING

- 14 CIPFA's 2021 Prudential Code outlines that local authorities must not borrow to invest with the primary objective being financial return. It is not prudent for local authorities to make any investment or spending decision that will increase the capital financing requirement requiring new borrowing, unless directly and primarily related to the functions of the Authority.
- 15 The Authority has not invested in assets for financial return and all expenditure is related to the discharge of the Authority's functions.

BORROWING STRATEGY AND ACTIVITY

- 16 As outlined in the treasury strategy, the Authority's main objective when borrowing has been to adopt a low-risk strategy balancing low interest costs and achieving cost certainty over the period for which funds are required. The flexibility to renegotiate loans should the Authority's long-term plans change is a secondary objective. The Authority's borrowing strategy continues to address the key issue of affordability without compromising the longer-term stability of the debt portfolio.
- 17 For the majority of the year the cost of short-term borrowing from other local authorities closely tracked Base Rate at around 5.00% - 5.25%. However, from late 2024 rates began to rise, peaking at around 6% in February and March 2025.
- 18 The PWLB certainty rate for 10-year maturity loans was 4.80% at the beginning of the period and 5.42% at the end. The lowest available 10-year maturity rate was 4.52% and the highest was 5.71%. Rates for 20-year maturity loans ranged from 5.01% to 6.14% during the period, and 50-year maturity loans from 4.88% to 5.88%.
- 19 As of 31 March 2025, the Authority held £19.07m of loans, an increase of £1.29m compared to 31st March 2024. A summary of outstanding loans as of 31 March is provided in [Table 3A](#) below.

Table 3A: Borrowing Position

	31.03.24 Balance £m	Net Movement £m	31.03.25 Balance £m	31.03.25 Weighted Average Rate %	31.03.25 Weighted Average Maturity (years)
Public Works Loan Board	17.78	-3.714	14.073	3.200	7.150
Local authorities (short-term)	0.00	5.000	5.000	5.200	0.410
Total borrowing	17.78	1.29	19.073		

- 20 The Authority took out a new £5M short-term local authority loan in December 24 due for repayment in August 25. All other short-term loans are held with the PWLB. Further borrowing is not required until August, however, if there is a sudden movement in the market with improved rates this will be utilised upon advised from our treasury advisors Arlingclose.

Table 3B: Long-dated Loans borrowed

	Amount £m	Rate %	Period (Years)
PWLB Maturity Loan	2.00	4.80	28
PWLB EIP Loan	0.59	3.09	13
PWLB EIP Loan	4.17	3.91	16
Total borrowing	6.76		

- 21 The Authority's borrowing decisions are not predicated on any one outcome for interest rates and seeks to maintain a balanced portfolio of short- and long-term borrowing.

TREASURY INVESTMENT ACTIVITY

- 22 CIPFA published a revised Treasury Management in the Public Services Code of Practice and Cross-Sectoral Guidance Notes on 20 December 2021. These define treasury management investments as investments that arise from the organisation's cash flows or treasury risk management activity that ultimately represents balances that need to be invested until the cash is required for use in the course of business.
- 23 The Authority holds invested funds, representing income received in advance of expenditure plus balances and reserves held. During the year, the Authority's investment balances ranged between £1.37m and £9.13m. The investment position is shown in [Table 4](#) below.

Table 4: Treasury Investment Position

	31.3.24		31.03.25	31.03.25	31.03.25
	Balance	Net Movement	Balance	Income Return	Weighted Average Maturity
	£m	£m	£m	%	days
Banks & building societies	1.48	1.04	2.52	4.34 - 5.14	On call
Fixed Term		0	0	4.75	37
Central Government	1.48	-1.48	0.00	4.45 - 5.19	
Total investments	2.96	-0.44	2.52		

- 24 Both the CIPFA Code and government guidance require the Authority to invest its funds prudently, and to have regard to the security and liquidity of its treasury investments before seeking the optimum rate of return, or yield. The Authority's objective when investing money is to strike an appropriate balance between risk and return, minimising the risk of incurring losses from defaults and the risk of receiving unsuitably low investment income.
- 25 As demonstrated by the liability benchmark in this report, the Authority expects to be a long-term borrower and new treasury investments are therefore primarily made to manage day-to-day cash flows using short-term low risk instruments.
- 26 Bank Rate reduced from 5.25% to 5.00% in August 2024, again to 4.75% in November 2024 and again to 4.5% in February 2025 with short term interest rates largely being around these levels. The rates on DMADF deposits ranged between 4.45% and 5.19% and money market rates between 4.34% and 5.14%.

COMPLIANCE

- 27 All treasury management activities undertaken during the year complied with the principles in the Treasury Management Code and the Authority's approved Treasury Management Strategy. North Wales Fire and Rescue Service (the Service) holds two call accounts that are used to place short term deposits, with Lloyds Bank and Barclays Bank. The interest rates being offered on treasury deposits tend to be more favourable; however, deposits were held with Lloyd and Barclays during the period due to the liquidity requirement for purchasing the land for the new training centre.
- 28 The authority also utilises its Debt Management Office (DMO) account, as the Treasury Management Strategy allows for unlimited funds to be placed with the DMO.

29 Compliance with specific investment limits is demonstrated in [Table 5](#) below.

Table 5: Investment Limits

Institution	Description	Limit	31.03.25 Actual	Complied? Yes/No
Banks	All UK banks and their subsidiaries that have good ratings (Fitch or equivalent). This is currently defined as long term (BBB)	£5m	£2.52m	yes
Central Government	Debt Management Office (DMO)	Unlimited	0	yes
Money Market Funds (MMF)	Only in conjunction with advice for Arlingclose	£1m per fund	0	yes
Local Authorities	All except those subject to limitation of council tax and precepts under Part 1 of the Local Government Finance Act 1992	£2m	0	yes
Building Societies	Building societies with a rating (as for the banking sector)	£2m	0	yes
Building Societies (Assets £1bn)	Building societies without a rating but with assets of £1billion or more	£2m/9 months	0	yes

30 Compliance with the Authorised Limit and Operational Boundary for external debt is demonstrated in [Table 6](#) below.

Table 6: Debt and the Authorised Limit and Operational Boundary

	31.03.25 Actual £m	2024/25 Operational Boundary £m	2024/25 Authorised Limit £m	Complied?
Borrowing	19.07	28.99	30.99	Yes
Total debt	19.07	28.99	30.99	

31 Since the operational boundary is a management tool for in-year monitoring there may be occasions when actual borrowing exceeds this target. This may be due to variations in cash flow and short-term breaches would not count as a compliance failure.

TREASURY MANAGEMENT INDICATORS

32 As required by the 2021 CIPFA Treasury Management Code, the Authority monitors and measures the following treasury management prudential indicators.

Liability Benchmark

- 33 This new indicator compares the Authority's actual existing borrowing against a liability benchmark that has been calculated to show the lowest risk level of borrowing. The liability benchmark is an important tool to help establish whether the Authority is likely to be a long-term borrower or long-term investor in the future and so shape its strategic focus and decision making.
- 34 The indicator represents an estimate of the cumulative amount of external borrowing the Authority must hold to fund its current capital and revenue plans while keeping treasury investments at the minimum level of £2.0m required to manage day-to-day cash flow.

	31.03.24 Actual £m	31.03.25 Actual £m	31.03.26 Forecast £m	31.03.27 Forecast £m
Loans CFR	27.94	29.68	40.30	42.200
Less: Balance sheet resources	-13.12	-13.13	-16.20	-15.70
Net loans requirement	14.82	16.55	24.10	26.60
Plus: Liquidity allowance	2.00	2.00	2.00	2.00
Liability benchmark	16.82	18.55	26.10	28.60
Existing borrowing	-17.78	-19.07	-8.50	-7.10

- 35 The above forecast does not include any costs for the proposed training centre.
- 36 Following on from the medium-term forecast above, the long-term liability benchmark assumes capital expenditure funded by borrowing of £4m - £6m a year, minimum revenue provision on new capital expenditure based on the current asset lives, as per the accounting policy, income and expenditure increasing by inflation of 2.5% p.a. and a reduction in reserves. This is shown in the [chart below](#) together with the maturity profile of the Authority's existing borrowing.
- 37 The graph shows that the Authority is expecting to need to borrow in future years. The Authority will always have a borrowing requirement as it does not hold significant cash or reserves and only has limited access to capital grant funding.

- 38 The blue line represents the need to fund capital expenditure through borrowing (the Capital Financing Requirement or CFR). The red lines represent the need to fund capital expenditure through borrowing once reserves and working capital surplus' (or deficits) have been taken into account – this is actually the real need to borrow which CIPFA have defined as being the Liability Benchmark. The dashed red line represents the position at year end and the solid line represents the average mid-year position. The grey shaded areas show actual loans. When the grey area falls below the red lines this infers a borrowing need.

Maturity Structure of Borrowing

- 39 This indicator is set to control the Authority's exposure to refinancing risk. The upper and lower limits on the maturity structure of all borrowing were:

	31.03.25 Actual	Actual Limit	Upper Limit	Lower Limit	Complied Y/N
<12 months	9.3	48.77%	60.00%	0.00%	Y
12 months and <24 months	1.5	7.87%	45.00%	0.00%	Y
24 months and < 5 years	1.2	6.29%	45.00%	0.00%	Y
5 years and <10 years		0.00%	75.00%	0.00%	Y
>10 years	7.07	37.07%	100.00%	0.00%	Y

- 40 Time periods start on the first day of each financial year. The maturity date of borrowing is the earliest date on which the lender can demand repayment.

Long-term Treasury Management Investments

- 41 The Authority does not hold any long-term treasury investments.

IMPLICATIONS

Wellbeing Objectives	This report links to the Authority's long-term well-being objectives. Ensures that the purchase of assets to support front line service delivery is prudent, affordable and sustainable. Ensures there is sufficient investment in infrastructure to enable the service to provide emergency responses and prevention work well in to the future.
Budget	Budget is set annually for capital financing in line with the Treasury report.
Legal	The regulatory framework is set out in paragraph 1.
Staffing	None.
Equalities/Human Rights/Welsh Language	None.
Risks	Investment of surplus funds – there is a risk that the financial institution in which the service's funds are invested could fail with a loss of part of the principal invested. However, one of the purposes of the report is to mitigate this risk.
